Instructions

This Vibrator arrives with a partial charge, so it is recommended to fully charge it before first use, which will take approximately 70 min. When plugging the toy in to charge, the indicator light will flash while charging and will remain on when the toy is fully charged.

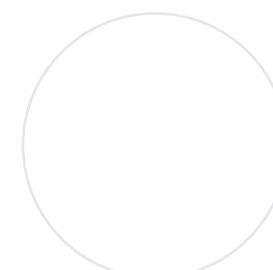

To turn on the Vibrator press a button for at least 3 sec, then press the button again to explore its different modes and vibration intensities. Press the button again for at least 3 sec. to turn it off.

For a more pleasurable experience, it is ideal to use this toy with water-based lubricants. We recommend our exclusive distribution line of Natural Elixir Intimate Lubricant.

Silicone lubricants should not be used with silicone toys. Irreversible damage may occur.

Before using the toy for the first time, and after each use, it should be cleaned to reduce the risk of infection, maintain proper hygiene and prevent rapid deterioration of the toy. We recommend a special product for optimal cleaning such as our Elixir Toy Cleaners.
